The special committee appointed to secure rooms in the City Hall for an office for the Mayor, presented a report setting forth that in the opinion of the committee the best plan is to move the District Court from the City Hall and take the rooms thus vacated for the use of the Mayor; that the committee have examined rooms in several buildings and find that suitable accommodations can be secured at a reasonable rate in the Fuller building, in which rooms can be secured on the first floor for $600, third floor $750, and fifth floor $500, that Judge Randolph, of the District Court, prefers the first floor. and the committee believe the location will be the best for those who have business before the court, that the contemplated changes will cost considerable, but if the Board of Finance and Taxation do not provide the money, the same cannot be made at present, the report recommending the adoption of the following resolution:

Resolved, That the Board of Finance and Taxation be requested to authorize an expenditure of not exceeding eleven hundred dollars, chargeable to the contingent fund of said Board for the purpose of removing the District Court from the City Hall to the Fuller Building, southwest corner of Montgomery and Hudson streets, and the renovating and furnishing of the rooms thus vacated for the use and occupancy of the Mayor and to be known as the Mayor(s office.

The following communication was presented, received and ordered filed:

OFFICE OF CHIEF OF POLICE,
JERSEY CITY, June 15, 1886.

Hon Board of Aldermen:

GENTLEMEN—In accordance with my duty I referred your resolution concerning the sale of liquor, that was referred to me, to the Board of Police Commissioners and was instructed to communicate with you in reply to said resolution. I do not pretend to be competent to say how many saloons are necessary in this city for the public good, but if your Honorable Body will permit me I would like to make two suggestions that, if acted upon, I know would be for the public good. First, an ordinance to prohibit the sale of liquor between twelve o'clock midnight and five in the morning. Second, grant no licenses to sell liquor to be drank anywhere only in a hotel or saloon. There are 185 grocery stores in this city where liquor is sold and drank upon the premises. Should such regulations as mentioned be established my experience as a police officer tells me the peace and order of the city would be much improved and the public good subserved.

I am, gentlemen,
Very respectfully
Your obedient servant,
BENJ. MURPHY,
Chief Police.

The City Clerk presented a notice received by him on the 15th inst. from J. D. Manning, attorney of applicants, that Judge Knapp, of the N. J. A communication from the Corporation Attorney setting forth that on the 28th of May last, by request, he made an application to the Chancellor for an injunction to restrain the New Jersey Junction Railroad Company from interfering with the surface of Newark avenue, which application after due consideration was denied on the ground that under the General Railroad law of the State a railroad company in constructing its designated route through a city has the right to cross any street upon its route below grade without the permission of any department of the city government, etc., that this is the law as declared by the highest judicial authority of this State, and until the Junction Railroad

Company shall be guilty of some unreasonable proceeding in their proposed crossing of Newark avenue it will in his opinion be useless to make any further application for an injunction against said company as directed by resolution approved June 17, 1886, was presented, received and ordered filed.

A communication from the Corporation Attorney setting forth that in accordance with directions received the City Marshal made complaint against the Pennsylvania Railroad Company for non-compliance with the ordinance relating to gates at West Newark avenue that process was issued and defendants appeared but all further proceedings are stayed until the determination of the certiorari recently allowed, was presented, received and ordered file .

A copy of resolutions adopted by the Board of Public Works, on the 12th inst., agreeing that Jersey City shall pay annually not exceeding $2,500 over and above the legal expenses connected with prosecution of cases, to meet one-half of all expenses of the Board appointed to prevent the pollution of the several sources of the water supply of Jersey City and Newark, was presented, received, and on motion of Alderman Reardon, referred to a special Committee of three, consisting of Alderman Reardon, Davis and Shawda.

A copy of a resolution adopted on the 12th inst., by the Board of Public Works, concerning the improvement of Manhattan avenue, from Sherman avenue to Central avenue, was presented, received and laid upon the table

The following opinion from the Corporation Counsel was presented, received and ordered filed:

To the Honorable the Board of Aldermen of Jersey City:

"GENTLEMEN—I am in receipt of your resolution passed by your Board at its meeting held on the 13th July inst., asking my opinion whether section 18 of the supplement to the city charter, approved March 24, 1873, requiring the approval of the Mayor and Aldermen in the making of improvements has been repealed by any subsequent enactment which will take from this Board the right to approve or refuse approval in the making of contemplated improvements."

I herewith enclose you my views on that subject. By the 21st section of the charter of 1871 the Mayor was made ex-officio a member of all the Boards of the city government, except the Board of Aldermen and the Board of Public Works

The 23d section of the same act gave the Mayor a veto power over the actions of the Board of Aldermen, and the 95th section gave the Mayor the power of veto over the actions of the Board of Public Works.

Being a member of the other Boards the Mayor had no veto power over their actions.

By the 2d section of the act approved March 24th, 1873, it was enacted that the Mayor should not be ex-officio a member of any of the Boards of the city government, but should have the power to veto the action of any Board within ten days thereafter, and that all ordinances and resolutions should be certified and forwarded to him for his approval.

By the 18th section of the same act it was further enacted that as soon as said Board of Public Works should pass any resolution directing any improvements to be made under the 47th, 48th and 9th sections of the act of 1871, and the same shall have been approved by the Mayor and Aldermen of said city, the Commissioners of Assessments, with the aid of the Bureau of Survey, shall make a report to the Board of Public Works, etc.

By the 37th section of the same act it was enacted that no motion, resolution or order of the Board of Public Works providing for the making of any improvement or the doing of any work or the procuring of any materials, or the purchase of any property, etc., * * * * should be of any force or effect unless the same was concurred in by a vote of the Board of Aldermen.

By the 9th section of the act of 1874 the 37th section of the act of 1873 last above mentioned was repealed, and it was enacted that thereafter no motion, resolution or order of the Board of Public Works, providing for the making of any improvement or the doing of any work, or the procuring of any materials or the purchase of any property, etc., * * * * should be of any force or effect unless the same was concurred in by the Board of Finance and Taxation.

The 26th section of the act of 1874 repealed all acts and parts of acts inconsistent with the provisions of said act.

These are all the provisions of the charter and of the supplements thereto bearing on the subject of your inquiry and the power of your Board in relation thereto.

The language of the 18th section, of which you especially inquire, is that as soon as the Board of Public Works shall pass a resolution directing any improvement to be made * * * * and the same shall have been approved by the Mayor and Aldermen of said city, and has led to some uncertainty.

The phrase, "The Mayor and Aldermen" being the exact corporate name of the city has given rise to the construction that the resolution named shall be approved by the municipality in its corporate capacity, that is by the approval of such other Board of the city government as would properly have cognizance of the improvement indicated by the resolution itself, the character of the improvement determining naturally to what Board the resolution shall go for approval.

My own view is that the phrase shall have been approved by "the Mayor and Aldermen of said city," was intended to mean approved by the Mayor and also by the Board of Aldermen, and that the natural order for the consideration of sections 2—18 and 37

should be 2—37 and 18. The 2nd section gives the power of approval to the Mayor, the 37th section defines specifically what motions, resolutions, orders, etc., of the Board of Public Works should be concurred in by the Board of Aldermen to give them force and effect, and then section 18, which directs that as soon as the Board of Public Works has by resolution determined to make any improvement as therein indicated, and the resolution shall have been approved by the Mayor and Aldermen acting independently, the work shall go forward.

The 18th section does not contain any direction or authority for the Board of Aldermen to approve the resolutions of the Board of Public Works, the reading is after "the same shall have been approved," presupposing that the power of approval exists elsewhere in the act, and that that power should be exercised before the contemplated improvement could be proceeded with under said (18th) section. In the orderly course of construing these sections, the 37th section of the act (which gives the power of concurrence to the Board of Aldermen) should be read before the 18th section, which requires the power of approval given by the 37th section to be exercised before it authorizes further proceedings. I think that the power of concurrence of the 37th section and of approval required by the 18th section is the same power.

The orderly proceeding with an improvement under the 18th section of the law of 1873 would have been, first, the Board of Public Works would pass a resolution directing the improvement, then that resolution would go to the Mayor for his approval, then the resolution would go to the Board of Aldermen for its concurrence, and then having been approved by the "Mayor and Aldermen" the resolution would be returned to the Board of Public Works to be proceeded with under said section.

If this construction of the different sections referred to is the correct one, the Board of Aldermen was the only Board of the City Government which had, under the law of 1873, the power of concurrence in or approval of the actions of the Board of Public Works—that such power was derived from the 37th section and that the approval of a resolution of the Board of Public Works by the Mayor under the 2d section and its concurrence in by the Board of Aldermen under the 37th section satisfied the 18th section which requires the approval of the Mayor and Aldermen of said city.

The power of concurrence thus conferred on the Board of Aldermen by the said 37th section was taken away from that Board by the 9th section of the act of 1874 which repealed the 37th section of the act of 1873 and gave to the Board of Finance and Taxation the sole power of concurrence in the actions of the Board of Public Works, leaving the veto power of the Mayor undisturbed.

My conclusion, therefore, is that the power of approval given to the Board of Aldermen by the 37th section of the act of 1873 and the exercise of which was required by the 18th section before any improvements could be made, is now vested absolutely in the Board of Finance and Taxation, and that that part of the 18th section requiring the approval of the Board of Aldermen deriving, as it did, all its force from the 37th section, necessarily fell when the section upon which it rested fell, although not repealed by specific reference to the section itself.

Dated July 27, 1886.

Very Respectfully,
JOHN A. BLAIR,
Corporation Counsel.

The City Clerk presented reports of the approval by the Mayor on the 20th inst. of the ordinances passed on the 13th inst., to amend ordinance to license carts, etc., and to authorize the Jersey City and Bergen R. OFFICERS' COMMUNICATIONS.

The following communication from the Mayor was presented and received:

EXECUTIVE DEPARTMENT,
MAYOR'S OFFICE, CITY HALL,
JERSEY CITY, Oct. 25, 1886.

To the Board of Aldermen:

GENTLEMEN—On Thursday next, the great Bartholdi statue of "Liberty Enlightening the World" presented to the American people, accepted by the Government of the United States, and mounted upon Liberty Island near this city, will be unveiled and dedicated to public use by grand and imposing ceremonies.

The affair will not be local, but national, the government itself in fact having taken charge of the arrangements, and there will be the most interesting and largest parade of military and civic societies ever seen in this country. Foreign governments will be represented.

The United States Navy will be represented in the harbor, and altogether the whole matter will partake of the nature of a grand national celebration.

Accordingly, I respectfully recommend that all offices of the city government be closed for the day in order to allow those employed by the city an opportunity to witness and participate in the festivities.

If business throughout the city could cease it would be but a proper recognition of the great occasion, and of cordial relations existing between the two great Republics, France and the United States, which I trust will be sealed forever by the final act accepting this great gift.

Very respectfully,
Your ob't servant,
ORESTES CLEVELAND

The following preamble and resolutions in relation thereto were offered by Alderman Reardon and adopted.

Whereas, Thursday, the 28th inst., is the day set apart for unveiling upon Liberty Island the Statue of Liberty Enlightening the World, the gift of the Republic of France to our country, and

Whereas, It is contemplated to make the celebration the greatest that this country has ever witnessed, and

Whereas, It is proper that our citizens should join in the festivities,

Resolved, That this Board of Aldermen direct that on Thursday, the 28th inst., the offices in the City Hall be closed, and that the national colors be displayed on all public buildings, and that the citizens generally be requested to close their places of business on that day and to display the national colors on all buildings where possible.

Whereas, While such corporations have acquired by purchase the fee simple of much property fronting on streets intended for public use, and by such ownership are competent to ask for vacation of parts of said streets, and

Whereas, The vacation of such streets will transfer the ownership of the land therein from the public to said corporations without any compensation to the city, and

Whereas, While the city charter gives the Board of Public Works power to vacate streets upon petition, it also gives said Board authority to refuse.

Resolved, That this Board of Aldermen earnestly protest against the vacation of any street or part of a street in Jersey City until after said Board of Public Works shall have ascertained through competent parties the true value of the land sought to be vacated and upon the payment into the city treasury of the amount so ascertained; and further, that before such vacation said Board of Public Works secure from such corporation its written guarantee that upon such valuation they will pay to the Corporation of Jersey City annually the full rate of taxation thereon.

R. Co., etc.; that he has watched the improvements now in progress and there does not exist any substantial ground upon which to base legal proceedings, either to restrain the work or to protect private property; that the work has been done within the power which the law confers upon the companies, and where such power has not been ample for their purpose they have petitioned the proper municipal Board to aid them.

REPORT OF SELECT COMMITTEE

Alderman O'Neill, Chairman of the Special Committee, appointed September 28, 1886, to confer with the Pennsylvania Railroad Company, in reference to elevation of tracks, etc., presented a report (signed by himself alone) setting forth that plans for the elevation have been made by the company. It consists of building from Brunswick street, to Henderson street of the railroad on iron supports or pillars similar to the elevated railroad in Sixth avenue, in the City of New York; the pillars to be located at regular intervals about six feet outside of the present fence, which will be removed and the land between the fences would become part of Railroad avenue, making that avenue from ninety-five to one hundred and twenty feet in width; that between Henderson street and the river the nature of the ground and safety of employees requires that the tracks should rest on solid embankment, except where they cross Warren and Washington streets over which streets bridges would be thrown; that the necessity of the trains getting to tide water would prevent any practical or useful crossing being made over Green street, so that that street would be rendered impassible and therefore the vacation for the width of said road was a part of the plan; that the estimated cost is $900,000 to be borne by the company, except the cost of changing the grades of streets where desired, &c., the report recommending the adoption of the following resolution:

Resolved, That in the judgment of this Board the plan for elevating the tracks in possession of the Pennsylvania Railroad through Jersey City, as proposed by the officers of said company to the Committee of this Board on the 23d November last, is best adapted to secure the lives and property and promote the interests of this city be and is hereby accepted by this Board, and that this city enter into contract with said company to elevate said tracks in accordance with the said plans.

On motion of Alderman Reardon the report was recommitted with instructions to give parties interested an opportunity to be heard.

Whereas, The corporate authorities of Jersey City have not interfered with the construction of said road, except so far as an attempt to protect the property of its citizens may be construed to be an interference; and

Whereas, This said road, although acting and claiming to act under the laws of the State of New Jersey, is simply a connecting link in the plan to connect the different roads in this State and in other States, and is given a financial rating by reason of the pledging of its bonds by the New York Central Railroad and other corporations foreign to this State and its laws; and

Whereas, The construction of this road on a line following the foot of the hill cuts off effectually (except with its consent) all future chance of drainage, and will, when completed, destroy the outlet of present sewers without compensating the city or providing for any future needs in this particular: and,

Whereas, The action of city officials whenever exercised for the benefit of our citizens, is rendered nugatory by an appeal to the courts, and in the meantime the work of filling, piling and construction of road is prosecuted by said railroad company or its employes, and houses of citizens are injured and rendered uninhabitable: therefore,

Resolved, That the honorable the Senate and House of Assembly of the State of New Jersey be requested to investigate the subject matter of the foregoing preamble and resolution, and to amend the present law or enact a law that will prevent railroad corporations from taking possession of the streets in incorporated cities without compensation to such cities, and to compel the payment of damages to owners of property injured by construction of railroads.

Resolved, That the Corporation Counsel and Attorney be instructed to defend the city in said injunction proceedings and to secure the setting aside of the same.

Whereas, On Sept. 28, 1886, a petition was presented signed by D. E. Cleary and others, for some action toward the elevation of the tracks of the Pennsylvania Railroad Company, from Brunswick street to the ferry, and at said meeting a resolution was adopted appointing a special committee to confer with the Pennsylvania Railroad Company and other parties interested upon the subject; and
Whereas, at a meeting held Dec. 14, 1886, a report signed by but one member of said committee was presented, in which report the Board was informed that the Pennsylvania Railroad Company would do certain things therein named, upon the adoption of a resolution attached thereto, accepting and approving of a plan submitted with said report and binding the city to the execution of a contract for the same purpose; and
Whereas, We know that the special committee have had two interviews with the officials of the Pennsylvania Railroad Company, yet we also know that said Company has not presented to the Board any written communication on the subject, but have studiously avoided any responsibility, and by their action have led the public to believe that the citizens are alone interested in the proposed elevation of the tracks, and
Whereas, an expenditure by said Railroad Company of nearly a million dollars to render travel at street crossings absolutely safe is not to be considered the sole object of such outlay. Therefore,
Resolved, That in the opinion of this Board, and as the representatives of the citizens affected by such proposition all action heretofore had is ill-advised and untimely.
Resolved, That in view of the importance of the question, the Pennsylvania Railroad Company should, and ought to, present to the Board of Alderman a communication clearly stating what they desire in the premises, and with such information as will leave no doubt as to intention and result, and what benefit will inure to the city and the company, placing at the pleasure of the Board the opinion of their engineers, and plans and specifications of the proposed work.
Resolved, that the special Committee heretofore appointed be discharged, and that all action heretofore had in Committee of the whole, or by this Board touching or concerning the proposed elevation of tracks of the Pennsylvania Railroad, the vacation of Greene street, and alterations of grades be, and is, hereby rescinded, and declared null and void.
After some discussion the President declared the preamble and resolutions out of order.
The following preamble and resolution were offered by Alderman Davis and adopted:
Whereas, In many places wires have been attached to trees for support of electric lights and poles to the injury of such trees.
Be olved, That the Chief of Police be requested to enforce the provisions of Section 22, of the ordinance regulating streets, &c., passed March 17, 1874.
The following resolution was offered by Alderman Davis and adopted:
Resolved, That the Committee on Streets are hereby authorized to remove dangerous trees and to trim off limbs of trees that are dangerous to travel, and to expend for such purpose the sum of two hundred dollars heretofore appropriated.
The following resolution was offered by Alderman Davis and adopted:
Resolved, That the Corporation Counsel be and he hereby is requested to advise this Board of his opinion.
1st—As to whether in the event of the passage by this Board of a resolution vacating Greene street, where the same is now crossed by the tracks of the Pennsylvania Railroad Company, and of the execution of an agreement under the 163d Section of the General Railroad Act, the owners of property east of Washington street and north of said Pennsylvania Railroad tracks would be entitled to damages from said Company in case they were injured by such vacation, and
2d—As to whether in the event of the execution of such a contract by the city, without inserting therein a provision that all damages caused by such va-

cation should be paid by said Railroad Company, the city would be liable to pay the same to the property owners within the area aforesaid, and

3d—How and by whom such damages in either case would be ascertained.

On motion of Alderman Reardon the Board then adjourned.

OFFICERS' COMMUNICATIONS.

EXECUTIVE DEPARTMENT,
MAYOR'S OFFICE, CITY HALL,
JERSEY CITY, March 18, 1887.

To the Honorable, The Board of Aldermen:

GENTLEMEN—An ordinance adopted by the Board at it's meeting March 8, 1887, entitled "an ordinance to authorize the Incandescent Light Company of Hudson County, N. J , to erect etc.," is herewith returned without my signature. There are so many objections, each in itself absolutely fatal, that I only need mention a few of them to show that any citizen could bring a writ of certiorari and take the ordinance before the Supreme Court for review where it would be set aside without any hesitation whatever. Some of the points that could be raised are not matters of doubt to be argued and considered, but questions so plain that no reputable counsel will for a moment advise that the ordinance could, by the utmost stretch of language or possibility have any force or vitality in law.

The title of the ordinance declares that it is to authorize a certain company to erect poles, lay pipes, etc., but in the body of the ordinance the "consent" is given to an entirely different company, while, as a matter of fact, neither of the two companies has any existence whatever. At least if any of them has any existence it is still in the invisible black, and has not yet become "incandescent." It does not appear upon the records of the County Clerk, nor of the Secretary of State. This is fatal to the ordinance. I have often heard it said that corporations have no souls, but this pretended corporation has no body or substance, not even a shadow by which to make its presence known. It will be plain to the dullest mind that your Board cannot grant the consent of the city authorities to a person or corporation that does not exist. But even were it possible for this imaginary spectre or spirit to materialize and become "incandescent," so that we might see it, it would surely burn the fingers of any capitalist or other person who might attempt to handle it. Section 2 of this amazing ordinance requires this wonderful and invisible company to "put their incandescent works in operation within two years," etc. Now if the works were ever constructed, and they should become "incandescent works," they would not only burn themselves up, but they would burn every living thing that might touch them, and would burn out very quickly even the hopes of those who now imagine that they could ever materialize any such undertaking. The ordinance grants the right to lay pipes or to erect poles "for the purpose of *conducting, supplying* and *distributing* incandescent light to buildings" etc. Incandescent light is produced by heating a solid substance to a condition of glowing whiteness, It cannot be *conducted, supplied* nor distributed through pipes, nor by means of poles, nor by any other means, and that fact makes the language so stupid and absurd that it is actually comic. It is evident that incandescent lights were intended by the author of the ordinance to be produced either by means of electricity conducted by wires strung on the poles, and, at given points where lights were desired, the flow of the electric current was to be impeded so that an accumulation of electricity would heat an interposed substance up to the glowing whiteness, and thus an "incandescent light" produced at the points, or by gas, known as heating gas, to be conducted through the pipes and intended for burning in order to heat a susceptible substance to the condition of incandescence, so as to give light. Th se are the only two methods now known for producing what is called the incandescent light. This involves the organization of a gas company. To do that there must be a capital stock of $5,000 for every thousand inhabitants of the city where the gas is to be supplied. Jersey City had more than 150,000 population in 1885, and this would require a capital of $750,000, one-half of which must be subscribed for in good faith, and twenty per centum thereon must be paid in cash at the time of subscribing. This would require *bona fide* subscribers for $375,000 of the stock and $75,000 in cash paid in. There must be thirteen directors, all residents of New Jersey, and nine of them must be residents of Jersey City. Not less than seven of them must make an affidavit that the subscriptions have actually been made in good faith and that the cash has been paid in. After that the certificates of organization can be filed with the Secretary of State, and the Company will then be permitted by law to receive the powers granted by one part of this ordinance, but not before. Nothing of the kind has been done. There is no such company as named in this ordinance. The whole thing is a transparent sham.

But even if a gas company has been organized it would not be possible for pipes to be laid in the principal streets because the law requires that the pipes shall be laid not less than four feet from any other gas, water or sewer pipes, and there are so many pipes laid already that a compliance with the law, while laying more would be impossible.

The provisions in regard to the agreement required by section 2 of the ordinance and the bond required by section 4 would have to be changed to be of any value, but the whole ordinance is so absurd and illegal that I need not detail further objections.

Very Respectfully,
ORESTES CLEVELAND, Mayor.

The following opinion from the Corporation Counsel, was presented, received and ordered filed:

To the Honorable Board of Aldermen of Jersey City:

GENTLEMEN:—In reply to your resolution of the 8th inst., requesting my opinion upon the following questions, to wit: 1. Whether in the event of the passage by your Board of a resolution vacating Greene street where the same is now crossed by the tracks of the Pennsylvania Railroad Company and of the execution of an agreement under the 163rd section of the general railroad act, the owners of property east of Washington street and north of said Pennsylvania Railroad tracks would be entitled to damages from said company in case they were injured by such vacation. I respectfully reply that if property is injured by the vacation of the street in the manner you indicate, the owners thereof will have no claim for damages against the railroad company for such injury.

In answer to your second inquiry, to wit: "Whether in the event of the execution of such a contract by the city without inserting therein a provision that all damages caused by such vacation should be paid by said railroad company, the city would be liable to pay the same to the property owners within the area aforesaid." I respectfully reply that if any damages are sustained by said property owners the city will in all probability be liable therefor.

In answer to your third question, "How and by whom such damages in either case would be ascertained," I respectfully suggest that as you are acting for the city and I am its legal adviser, it might be unwise for us to point out to those who may hereafter have claim against the city the means and manner of their enforcement. The owners of property injured by the action proposed in your resolution of inquiry, will be guided by their own counsel in enforcing their claims against the city or the railroad company, as the case may be; if against the city it will be my duty to appear in behalf of the city and defend it against such claim; however, the difficulty suggested by your inquiry can I think be very

readily avoided by the action of that body which assumes to make the contract for the proposed vacation.

You refer to the 163rd section of the general railroad law as the act under which such contract will be made.

I presume you mean the act approved March 10, 1884, and which is no part of the general railroad law. The Board or Boards which under that act is or are determined to be "the proper municipal authorities," ought I think to make such a contract as will relieve the city from any and all liability growing out of the work of elevating the tracks and the vacation of Green street.

If this course is pursued, the question of damages from injuries to private property will then only arise between those who are damaged and the railroad company, and your Board will then have no further anxiety as to how or by whom such damages are to be ascertained.

If the time comes to make such contract I will be glad to advise with the proper Board as to its condition.

Very Respectfully,
JOHN A. BLAIR,
Corporation Counsel.
